### STEM Camp Counselor

As a STEM camp counselor, I demonstrated strong leadership, communication, and collaboration skills. I led computer science activities, creating an engaging environment where campers developed their technical skills. By effectively communicating concepts in a clear and accessible manner, I ensured that all participants could grasp fundamental computer science principles. Additionally, I fostered collaboration among campers, encouraging teamwork and a problem-solving approach in computer science projects. Through concise and engaging communication, I fostered their enthusiasm for technology while promoting creativity.
